

## Bio - Mica White

Mica White is a CREATIVE (cree-A-teef). Her Passion is merging Creativity and Spirituality. She has been blessed to dance to cheering standing ovations before her dance was even completed. She has sung with choirs that received standing ovations and created her own **music CD - Magic Blend**. She has been **published** over a hand full of times in spiritual magazines for her **poetry** and has created her own **poetry CD - Listening Heart**.

December 2007 Mica had her first **story published** in the magazine **WNC Women** and was asked to tell in the afternoon session of the **Blue Ridge Festival**. In February 2008, Mica Received The **STORY TELLING WORLD HONORS AWARD** for the story she wrote, *Lily and the Magic Camera*, on her **CD - Mystical Whimsy**. A snippet of which made it onto **TV NEWS 13**.

Having told very convincing stories since childhood, Mica has been developing her story telling style since 2004. She has gleaned from Lloyd Arneach how beautifully the heart of a storyteller can imbue their stories. Mica has been blessed with Connie Regan-Blake's ability to cajole new born stories into young adult stories, ready to explore the world.

Mica expresses all the voices, character undulations, and her focus is creating **Stories for Positive Change**. Mica has also created an **HONORING WOMEN card deck** which invites women to delve into their intuitive wisdom to unveil the virtues of their Sacred Beingness.
